7.0 **PRINCIPLES for SENIOR (SR) CARDS**

- 7.1 Senior Cards are intended to support athletes already at or having the potential to reach international criteria. The carding support allows athletes to maintain a long-term commitment to training and competition to further their athletic goals.
- 7.2 Senior cards are awarded to athletes actively participating in SFC High Performance Training Programs with the purpose of obtaining improvement in performance as measured by scores and placing obtained in international competitions. **Athletes are expected to improve each year in order to have their card status recommended for renewal.**
- 7.3 An athlete is generally expected to be Senior (SR) National carded (including C1 Card) for no more than seven (7) years, at which time it would be expected that Senior International criteria have been met.
- 7.4 Athletes previously having achieved the SR International Card (SR1/SR2) level will be eligible for a maximum of five (5) further years of SR Card support based on the National Criteria, pending an annual review that determines the athlete's potential to re-attain the SR International Card level as described below.
- 7.5 Athletes who have received AAP carding at any level for more than twelve (12) years must achieve SR1/SR2 International Criteria conditions to be eligible for the continuation of carding support.

SENIOR CARD CONDITIONS FOR 2018 NOMINATIONS - OLYMPIC PROGRAM ATHLETES -

Senior card status is available for events on the Olympic program only. Senior Cards are awarded in the following priority: 1) Athlete(s) who have met the International Criteria and 2) Athlete(s) who have met the National Criteria.

Sport Canada assigns a limited number of AAP Cards. Cards are first allocated to athletes who have achieved the International Criteria with any remaining cards allocated to athletes based on the National Criteria. For the 2018 carding year there will be the equivalent of **three (3)** SR cards available to the SFC Olympic Program. All cards allocated for shooting are subject to change by Sport Canada.

Regardless of shooting discipline, an athlete confirmed to participate in the Olympic Games prior to the start of that carding year shall take precedence over any other athlete nominated for carding in the year of the Games.

INTERNATIONAL CRITERIA (SR1, SR2)

PERFORMANCE STANDARDS

The following standards must be obtained at an ISSF recognized World Championship or the Olympic Games prior to consideration:

1.0 Top 8;

and

2.0 Athletes must finish in the top half of the field.

Athletes who meet the international criteria are eligible to be nominated by the NSO for two consecutive years, with the card for the first year referred to as SR1 and the card for the second year referred to as SR2. The second year of carding is contingent on the athlete being re-nominated by the NSO and a training and competitive program approved by the NSO and Sport Canada being maintained. The athlete must also sign an Athlete / NSO Agreement and complete an AAP Application for Financial Support for the year in question.

PRIORITIZATION of CARD ALLOCATION

Prioritization is based on the rank achieved by an athlete within the mandatory performance standards (mentioned above) at the World Championships or Olympic Games. Regardless of shooting discipline, an athlete placing 4th for example would take precedence over an athlete placing lower in the ranking order of their respective discipline.

NATIONAL CRITERIA (SR/C1)

PERFORMANCE STANDARDS

The following standard must be obtained prior to consideration:

The athlete must be a member of the preceding and current year's SFC High Performance Program (as per Prerequisites item 1.2 of these criteria).

Athletes who have achieved this standard will be ranked according to the **Canadian Shooting Athlete Ranking System**. (Please see Appendix "A")

There is no distinction between rankings amongst the various disciplines.

Example: An athlete who is ranked 20th in 10M Air Pistol Women is directly compared to an athlete who is ranked 35th in 50M Pistol Men. Thus, in this example, the 10M Air Pistol Women athlete would be ranked ahead of the 50M Pistol Men athlete.

PRIORITIZATION of CARD ALLOCATION

Prioritization is based on the Canadian Shooting Athlete Ranking System (CSARS); the ranking achieved by an athlete at the end of the competitive season annually and in this instance as of **October 31, 2017**. Regardless of the shooting discipline, an athlete ranked 18th, for example, would take precedence over an athlete who has a lower ranking. The CSARS is defined as that established by the criteria described in Appendix "A" of this document.

If there are two or more athletes who have the same ranking and an insufficient number of cards to cover all the similarly ranked athletes, then the tie will be broken by the highest placing achieved at a World Cup or World Championship within the eligible competition year (see item 4.1). For prioritization among athletes with the same ranking there is no distinction made between World Cup placing and World Championship placing. When applicable, rankings achieved in qualification rounds shall take precedence over rankings achieved in elimination rounds.

Example: There are only two Cards left to be distributed, but there are three athletes with the same ranking. Athletes A, B, and C are all ranked 34th in their respective disciplines. Athlete A achieved a 20th place at a World Cup, while athlete B achieved an 8th place at a World Cup, while athlete C achieved a 15th place at the World Championships. Therefore, athlete B and athlete C would receive carding because of the higher placings they earned at the respective events.

CARDING CONDITIONS FOR 2018 NOMINATIONS - PARALYMPIC PROGRAM ATHLETES -

Senior card status is available for events on the Paralympic program only. Senior Cards are awarded in the following priority: 1) Athlete(s) who have met the International Criteria and 2) Athlete(s) who have met the National Criteria.

Sport Canada assigns a limited number of AAP Cards. Cards are first allocated to athletes who have achieved the International Criteria with any remaining cards allocated to athletes based on the National Criteria. For the 2018 carding year there will be the equivalent of **two (2)** SR cards available to the SFC for Paralympic shooters. All cards allocated for shooting are subject to change by Sport Canada.

Regardless of shooting discipline, an athlete confirmed to participate in the Paralympic Games prior to the start of that carding year shall take precedence over any other athlete nominated for carding in the year of the Games.

INTERNATIONAL CRITERIA (SR1/SR2)

PERFORMANCE STANDARDS

Based on results achieved on the program of the Paralympic Games, the following standard must be obtained in the Paralympic Games or World Championships for consideration*:

- 1.0 **Top 8;**
- and**
- 2.0 **Athletes must finish in the top half of the field.**
- 3.0 To be eligible for carding consideration, athletes must meet the SFC carding score standards as outlined in Appendix "B".

Athletes who meet the international criteria are eligible to be nominated by the NSO for two consecutive years, with the card for the first year referred to as SR1 and the card for the second year referred to as SR2. The second year of carding is contingent on the athlete being re-nominated by the NSO and a training and competitive program approved by the NSO and Sport Canada being maintained. The athlete must also sign an Athlete / NSO Agreement and complete an AAP Application for Financial Support for the year in question.

NATIONAL CRITERIA (SR/C1)

PERFORMANCE STANDARDS

Athletes must obtain the following standards prior to consideration*:

- 1.0 Equal or exceed SFC score standards as outlined in Appendix "B" in IPC sanctioned events,

AND

- 2.0 Place in the top 4 in the senior national team trials.

** A junior athlete who has achieved the SFC, Senior (SR) card score standard at National Championships or team trials may be eligible for Senior card nomination.*

PRIORITIZATION of CARD ALLOCATION

Prioritization of athletes will be developed by comparing athlete performances in the National Team Trials in eligible Paralympic event(s), against the winning result in that event at the 2016 Paralympic Games, less finals. Results comparisons will be carried to four (4) decimal points. Athletes with the highest percentage of the 2016 Paralympic event score will be prioritized first.

DEVELOPMENT CRITERIA (D) – PARALYMPIC PROGRAM

Any unallocated or remaining Senior (SR) card(s) will be converted into D card(s). The conversion rate is as follows: 1SR = 1D; 2SR = 3D; 3SR = 4D; etc.

Athletes previously carded at the SR1/SR2 level are not eligible for D cards. Athletes previously carded at the SR/C1 level for 3 or more years will not be eligible for D cards. An athlete may not be carded more than 4 years at the Development level.

Athletes must obtain the following standards prior to consideration*:

- 1.0 Equal or exceed SFC score standards as outlined in Appendix "C",

AND

- 2.0 Place in the top 4 in the senior national team trials.

** A junior athlete who has achieved the SFC Development (D) card score standard at National Championships or team trials may be eligible for Development card nomination.*

PRIORITIZATION of CARD ALLOCATION

Prioritization of athletes will be developed by comparing athlete performances in the National Team Trials in eligible Paralympic event(s), against the winning result in that event at the 2016 Paralympic Games, less finals. Results comparisons will be carried to four (4) decimal points. Athletes with the highest percentage of the 2016 Paralympic event score will be prioritized first.

APPENDIX "A"

CANADIAN SHOOTING ATHLETE RANKING SYSTEM (CSARS)

1. Ranking eligibility and participation is directed to members in good standing of the Shooting Federation of Canada National and Development Teams.
2. AAP cards shall be allocated to athletes based on their ranking following the completion of all eligible competitions within the calendar year. For the purposes of these criteria, eligible competitions include:
 - ISSF World Cups
 - ISSF World Championships
 - Commonwealth Games
 - Pan-American Games
 - Championships of the Americas (CAT)
 - Olympic Games
3. A minimum of one (1) competition from those listed in item 2. above must be shot per year for athlete inclusion in the CSARS and to be eligible for AAP carding nomination. Finals are not counted in the athlete score.
4. Only the relays that are used for athlete ranking permitted by the SFC 2018 Athlete Selection Criteria will be considered in CSARS calculations.
5. To determine Athlete Ranking Values, the following formula will be used:

$$\left[\frac{\text{Athlete Score} - \text{NT Cut Score}}{\text{NT Cut Score}} \right] \times 100 = \text{Athlete Percentage}$$

$$\left[\frac{\text{World Record} - \text{NT Cut Score}}{\text{NT Cut Score}} \right] \times 100 = \text{Max Percentage}$$

$$\text{Athlete Ranking Value} = \frac{\text{Athlete Percentage}}{\text{Max Percentage}}$$

- i.e. If an athlete shoots equal to the cut score the ranking value will be '0',
 If an athlete shoots below the cut score they will get a negative value (ex. - 0.5),
 If an athlete shoots above the cut score they will get a positive value (ex. +0.5),
 If an athlete shoots equal to the world record they will get a '1'.

NOTE: A negative "-" ranking value does NOT disqualify an athlete. It is simply a lower value than "0" or a positive "+" value.

6. Where an athlete qualifies for carding in more than one event, the second card shall be forfeited to the next ranked athlete.
