

## SHOOTING FEDERATION OF CANADA

### PROPOSED CONDITIONS FOR THE SELECTION OF 2022 ATHLETE ASSISTANCE PROGRAM (AAP) CARDED ATHLETES

#### COVID-19 CRITERIA (SR/C1)

The Shooting Federation of Canada has carefully followed the evolution of the coronavirus on the global and domestic level and how it has impacted the athletes in fulfilling the criteria found within this document. Situations related to the coronavirus pandemic have arisen that required this Internal Nomination Procedure to be modified.

Due to the cancellation of the 2020 World Cups and the postponement of the 2020 Tokyo Olympics, it is not possible to follow the normal SFC nomination procedure as outlined in this document. After consulting with Sport Canada, it is the decision of the High Performance Committee to re-nominate, for the 2022 carding cycle, the athletes who are currently receiving AAP Funding for 2020, at the same level of support. Those athletes will still be expected to fulfil the obligations found in the 2020 Athlete agreement to the best of their ability.

~~~~~

The athlete must:

Cards are first allocated to athletes who have achieved the International Criteria with any remaining cards allocated to athletes based on the National Criteria. For the current carding year there will be the equivalent of **five (5)** SR cards available to the SFC Olympic Program. All cards allocated to shooting are subject to change by Sport Canada.

Regardless of shooting discipline, an athlete who has won an Olympic Quota for Canada shall take precedence over any other athlete nominated for carding in the year following the Quota confirmation. The score shot that achieved the Olympic Quota will be used for ranking purposes. If the number of quotas achieved exceeds the number of available AAP cards, athletes will be nominated in priority order based on the Canadian Shooting Athlete Ranking System (CSARS) detailed in Appendix A. An athlete confirmed to participate in the Olympic Games prior to the start of that carding year shall take precedence over any other athlete nominated for carding in the year of the Games.

#### **INTERNATIONAL CRITERIA (SR1, SR2)**

#### **PERFORMANCE STANDARDS**

The following standards must be obtained at an ISSF recognized All Events World Championship or the Olympic Games prior to consideration:

- 1.0 Top 8 counting a maximum of three entries per country;**

Athletes who meet the international criteria are eligible to be nominated by the NSO for two consecutive years, with the card for the first year referred to as SR1 and the card for the second year referred to as SR2. The athlete must also sign an Athlete / NSO Agreement and complete an AAP Application for Financial Support for the year in question.

#### **PRIORITIZATION of CARD ALLOCATION**

#### **NATIONAL CRITERIA (SR/C1)**

Athletes will be nominated in priority order based on the CSARS and adherence to the YTP minimum requirements, 2020 Athlete Agreement, Code of Conduct Agreement and Anti-doping Agreement.

The CSARS is defined as that established by the criteria described in Appendix A of this document.

If there are two or more athletes who have achieved the same ranking in any of the above prioritization of card allocation scenarios, and an insufficient number of cards to cover all the similarly ranked athletes, then the tie will be broken by the highest placing achieved at a World Cup or World Championship within the eligible competition year (see item 4.1).

For prioritization among athletes with the same ranking, there is no distinction made between World Cup placing and World Championship placing. When applicable, rankings achieved in qualification rounds shall take precedence over rankings achieved in elimination rounds.

There is no distinction between rankings amongst the various disciplines.

$$\left[ \frac{\text{Average Athlete Score} - \text{NT Qualifying Score}}{\text{Score} - \text{NT Qualifying Score}} \right] \times 100 = \text{Athlete Percentage}$$

$$\left[ \frac{\text{World Record} - \text{NT Qualifying Score}}{\text{World Record} - \text{NT Qualifying Score}} \right] \times 100 = \text{Max Percentage}$$

$$\text{Athlete Ranking Value} = \frac{\text{Athlete Percentage}}{\text{Max Percentage}}$$

- i.e. If an athlete shoots equal to the qualifying score the ranking value will be '0',  
 If an athlete shoots below the qualifying score they will get a negative value (ex. -0.5),  
 If an athlete shoots above the qualifying score they will get a positive value (ex. +0.5),  
 If an athlete shoots equal to the world record they will get a '1'.

**NOTE:** A negative "-" ranking value does NOT disqualify an athlete. It is simply a lower value than "0" or a positive "+" value.
