International Shooting Sport Federation
Executive Committee
Widenmayerstrasse 16 80538
München GERMANY

Dears Sirs/Madams

The Shooting Federation of Canada (SFC) has the organizational values of Integrity, Respect, Equity, Accountability, Diversity, Inclusion, Excellence, Transparency and being Supportive of our membership.

The SFC Executive denounce Russia's invasion of Ukraine: There is no place for war in 2022. We echo and amplify the worldwide call for an immediate cease fire, withdrawal of troops and reinstatement of dialogue. We also send our hopes for safety and peace to the Ukraine people, the Shooting Federation of Ukraine and its members and their families.

We thank the ISSF Executive and the IOC for standing up for the Olympic cease-fire, peace and human rights in this instance, and will continue to support appropriate sanctions.

For the sake of the sport, its integrity and reputation, we had hoped that the ISSF executives, employees, committee members and officials from the countries of Russia and Belarus would voluntarily resign from their posts given the negative effect that their continued leadership could have on our sport in the international sport community. This has not yet happened and so we are asking that the ISSF executive make such decisions on behalf of the ISSF membership along with any other requirements to secure our federation and its components. We recognize this will be difficult, however the Shooting Federation of Canada will offer what it can in people and resources to support the ISSF to reduce any interim disruption this may cause the ISSF and its competitions.

If you are unable to make the decision to remove the Russian and Belarus leaders and officials or any others that support the Russian aggression in the Ukraine, the Shooting Federation of Canada would echo the call of others for an Extraordinary General Assembly to be arranged to determine the best direction for the ISSF moving forward towards Paris 2024. The shooting sports cannot afford to fail to take strong actions to remain true to the Olympic values.

We thank you for your attention to this matter and recognize that you are asked to provide strong value based decisions in this difficult time and we thank you for your courage and leadership.
